

# How-to guide

Getting started with your eero mobile app.

# Ready right out of the box.

The eero mobile app can help you set up your wifi in minutes. Simply download the eero mobile app, plug your eero device into your modem, and the eero mobile app will guide you through the setup.

Whether you're new to the eero mobile app or just need a refresher, this document will help guide you through basic features to set up and manage your eero network.

## Create an account

Upon first opening the eero mobile app, you will be prompted to create an account through a guided setup process.

#### Make sure you have the following to get started:

- Mobile device with a data connection. (If you don't have access to a data connection, see our workaround instructions here.)
- At least one eero gateway (the eero Beacon can only be added to an existing network).
- Internet service provided into your home.
- Cable or DSL modem.

• eero mobile app.

#### 1.

Open the eero mobile app and tap the *New to eero*? button.

#### 2.

Log in with your Amazon account or create a new account with your email or phone.

#### 3.

If creating a new account, enter in the verification code sent via SMS or email.

## Network setup

Your gateway is the primary eero device connected to your modem and is needed to establish your network. The eero mobile app will guide you through setting up your eero gateway in the following steps.

**1.** Tap Start Setup.

You'r	e ready to start setting up your eero wifi network
	Make sure you have the following
00	Gateway eero Any eero device with 2 Ethernet ports
Ģø	Power Cord Included
Ø	Ethernet Cord Included
[]	Modem Your existing modem
	Start
