WHOLE HOME Wi-Fi

Nokia Beacon 3.1 Quick Start Guide

scan me to start

Install in just a few easy steps:

- Download/Install the Nokia Wi-Fi App
- Follow the steps detailed in the app
- Enjoy your new Whole Home Wi-Fi

Provided by

NOKIA

Wightman

1. Download the mobile app

Download the Nokia Wi-Fi app to set up your Beacon 3.1, or follow the steps in this guide.

2. Plug in and power on

Plug in the power adapter and connect it to your Beacon 3.1.

Slide the power switch to turn it on.

3. Connect Ethernet

Plug the ethernet cable into the blue WAN port on your Beacon 3.1.

4. Connect modem

Connect the ethernet cable into port 1 on with Wightman fibre modem (ONT).

5. Wait for the green light

The Beacon 3.1's internet lights will turn green when it is ready.

6. Place additional Beacons (if necessary)

Use the Nokia Wi-Fi app to set up and help to position additional Beacons.

Extend your wireless network

You can also connect additional Beacons directly to the LAN port of the Beacon 3.1 and reposition them after they are all added to the wireless network.

7. Connect to Wi-Fi

Connect your devices using the SSID and Wi-Fi Key shown on the bottom of the Beacon 3.1.

Enjoy your Wi-Fi network

Your system may reboot after setup to optimize your network settings to your environment. This will take a couple of minutes and your network will be temporarily offline.
